

ENHANCED DIAGNOSTICS DIRECTORY

About the Directory

This diagnostic directory includes molecular testing laboratories that meet the following criteria:

1. Services offered go beyond the standard urine culture
2. The company has demonstrated a commitment to improving patient outcomes
3. The company has demonstrated a commitment to supporting the patient advocacy work of Live UTI Free

US

Acutis Diagnostics

Acutis offers the first PCR-based urinary tract infection test approved by CLEP – a 3rd-party reviewer for the FDA & a division of the NYSDOH.

Acutis Reveal™ UTI delivers high-quality diagnostic insights and enhanced antibiotic sensitivity testing to provide actionable data for the most effective patient care. Visit our website for more information on our UTI testing and getting started.

MicroGenDX

MicroGenDX is committed to giving hope for patients suffering from chronic, or recurring infections by harnessing the power of Next-Generation DNA Sequencing (NGS) to identify the exact bacteria or fungi that is causing the infection, allowing the clinician to prescribe a targeted antimicrobial.

Vero Diagnostics

As a molecular pathology lab changing the game in the ID arena, our testing menu is custom tailored to identify an array of pathogens and antibiotic resistance genes.

Our report includes a PharmD interpretation that clearly gives our providers the RIGHT medication at the RIGHT dose for the RIGHT patient. Our team of PharmDs are available 24/7 for a live consult to discuss results and suggested therapy.

Focus Medical Diagnostics

Offering an expanded quantitative urine culture (EQUC), more fastidious organisms missed by routine urine testing methods are detected. EQUC is run alongside liquid broth extraction, giving a more comprehensive picture of the urobiome.

With expert microbiology and clinical interpretation we can help weed out pathogens from commensal bacteria, the organisms typically seen on culture results.

Regenerus Laboratories

We provide access to 300+ of the world's most advanced functional tests.

We do this via:

- Test discovery: advice on the best test for your needs
- Logistics: we review all samples and manage international shipping
- Customer service: we're available Mon-Fri via phone and email
- Clinical Training: in-depth training on how to read our reports
- Lab screening: we verify that our lab partners are reliable and safe
