

# Enhanced Diagnostic Directory

for patients with persistent lower urinary tract symptoms

---

6 LABS

UTI, VAGINAL & PROSTATE CANCER TESTS

US AND UK

---

This directory is a collection of US and UK laboratories that specialize in enhanced UTI or vaginal microbiome testing methods. These labs are supportive of the work we do at Live UTI Free and are aware of the challenges patients often encounter when it comes to the detection of urinary and vaginal pathogens.

---

## The included molecular testing laboratories meet the following criteria:

---

1. Services offered go beyond the standard urine culture
2. The company has demonstrated a commitment to improving patient outcomes
3. The company has demonstrated a commitment to supporting the patient advocacy work of Live UTI Free

## How To Use This Directory

The directory is organized by region, with US laboratories appearing first. The type of tests offered by each company can be identified by the test code in the bottom right corner:

- UTI** Urinary test
- VAG** Vaginal test
- PRO** Prostate test
- PAT** Patient direct order

# US Testing Options

Emeritus Medical Technology, LLC is a diagnostic and information company. Our expertise is in delivering actionable clinical information. Within our world-class laboratories, we perform testing that guides the diagnosis and treatment of patients. We understand that patients depend on us to provide timely and accurate results to guide their treatment. "Together, We Save Lives."

UTI PAT

# UK Testing Options

Offering an expanded quantitative urine culture (EQUC), more fastidious organisms missed by routine urine testing methods are detected. EQUC is run alongside liquid broth extraction, giving a more comprehensive picture of the urobiome. With expert microbiology and clinical interpretation we can help weed out pathogens from commensal bacteria, the organisms typically seen on culture results.
